RESPONSE TO OFFICIAL ACTION MAILED 16 JUNE 2008

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In the Official Action mailed 16 June, 2008, it was acknowledged that applicant's prior arguments regarding many of the claims were persuasive, and the previous rejections of these claims were withdrawn. However, new grounds of rejection were asserted based upon newly discovered prior art references and claims 1-15 were again rejected. Applicant has studied the new grounds of rejection carefully and does not believe that a prima facie case of obvious has been established. Thus, the new grounds of rejection are traversed and applicant requests reconsideration and withdrawal of the newly applied claim rejections in view of the following discussions. No claim amendments have been made.
